RMF – Conflict Minerals Statement Regarding Section 1502 of the Dodd Frank Act

January 28, 2020

Dear valued customer,

The Dodd-Frank Wall Street Reform and Consumer Protection Act was signed into law on July 21, 2010 by President Barack Obama. The legislation set out to reshape the U.S. regulatory system in a number of areas including but not limited to consumer protection, trading restrictions, credit ratings, regulation of financial products, corporate governance and disclosure, and transparency.

Per the Act, “Conflict minerals,” are currently defined by the legislation as the metals of tantalum, tin, tungsten and gold. Some of which are the derivatives of the minerals cassiterite, columbite-tantalite and wolframite, respectively. **RMF-Roy Metal Finishing currently does not apply, electroplate or use any of the four listed metals.**

Sincerely,

John Pazdan
